

I benefit from listening to XM Satellite Radio and its traffic and weather channels. Satellite radio provides variety and quality that are not available elsewhere. I pay for these services and it should not be up to the National Association of Broadcasters to dictate what I am permitted to hear. I respectfully urge the FCC to reject the NAB's petition 04-160 and to support XM's ability to provide the kind of programming that I demand and deserve. XM Satellite Radio provides a fantastic alternative to AM/FM radio which have become corporate monopolys that play the same music and feed us the same tired DJ drivel. I appreciate the music, news and local weather and traffic information I recieve from XM. Don't let the corporate monopolys restrict access to the information we need just because we choose not to listen to their broadcast.
